PROFILE

AI & Automation Executive with hands-on experience building AI chatbots, workflow automations, and API-integrated solutions using Python, n8n, SQL, and Google APIs. Strong foundation in machine learning, NLP with a B.Tech in Artificial Intelligence and Data Science. Portfolio includes RAG chatbot, blog and social media automation, and agentic workflow projects using Gemini, Qdrant, webhooks, and workflow orchestration tools.

EDUCATION

Arya College of Engineering and IT — Jaipur, Rajasthan

Bachelor of Technology in Artificial Intelligence and Data Science — *Oct. 2021- Jun 2025*

CGPA – 8.33

EXPERIENCE

AI & Automation Executive — Sep 2025 – Present

HCA Automation Affordable

- Develop customized AI chatbot solutions aligned with business requirements to improve customer interaction and response handling.
- Integrate Google APIs, webhooks, and automation tools to support contextual responses and intelligent task execution.
- Build agentic AI workflows in n8n for process automation, API orchestration, and operational efficiency.
- Test and refine automation flow to improve reliability, usability, and business value.

Data Science Intern | *Link*

Celebal Technologies. — May 2024 – Jul 2024

- Built a regression-based salary prediction model using Python and scikit-learn.
- Performed data collection, cleaning, preprocessing, feature handling, and model evaluation across the ML pipeline.
- Improved prediction accuracy by 20% through preprocessing optimization and model tuning.

PROJECTS

RAG AI Chatbot| *Link*

- Developed an AI agent chatbot to automate query handling, task execution, and intelligent responses using workflow-based orchestration.
- Integrated external APIs and automation tools for dynamic responses and real-time action handling.
- Improved process efficiency by reducing repetitive manual support tasks through automated conversational workflows.

AI Blog Automation | *Link*

- Built an end-to-end content automation workflow to generate, format, and publish blog content automatically.
- Integrated Google Sheets, AI content generation, and WordPress APIs to reduce manual publishing effort.
- Automated content status tracking and publishing flow for faster operations.

TECHNICAL SKILLS

Programming Languages: Python, SQL.
Libraries: Pandas, NumPy.
Database: MySQL.
Data Analysis and Visualization: Excel.
Tools & Platforms: Git, Google Collab, Docker.
Automation & Integration: N8N, Google APIs, REST APIs, Webhooks, Workflow Automation
Soft Skills: Problem-solving, communication skills, Analytical Thinking, Adaptability.
Concepts: OOPs, Machine Learning, Generative AI.

CERTIFICATION

Infosys Foundation | *Certificate*	**Nov, 2024**
Data Science using Python | *Certificate*	**Dec, 2023**
Machine Learning using Python | *Certificate*	**Apr, 2024**
Data Analytics with Python | *Certificate*	**Apr, 2024**
Generative AI | *Certificate*	**May, 2024**
RHCSA (Red Hat Certified System Administrator) | *Certificate*	**Apr, 2023**
